

Physician Referred Exercise Program®

acac Fitness & Wellness Center's guided introduction to exercise where participants meet with medical fitness professionals to develop a customized fitness plan tailored to their individual needs.

- Two optional supervised sessions per week
- Hundreds of weekly group exercise classes
- Aquatics centers, included heated therapy pools
- Access to expert team of nurses & certified trainers
- Nutritional support and fitness education

When I was diagnosed with fatty liver disease, my doctor advised me to get in the prep program at acac. I took off the necessary weight to improve my liver function. The success of this program persuaded my husband to get a recommendation from his doctor to join as well. We are not in the best of health, and we just find acac a wonderful place with helpful staff and top of the line services to help us improve our Maria C., p.r.e.p.® participant health. Thank you, acac!
